Apple Reports Fourth Quarter Results

September quarter record for Revenue and EPS

Active installed base of devices reaches all-time high for all major product categories

CUPERTINO, CALIFORNIA — OCTOBER 27, 2022 — Apple today announced financial results for its fiscal 2022 fourth quarter ended September 24, 2022. The Company posted a September quarter record revenue of \$90.1 billion, up 8 percent year over year, and quarterly earnings per diluted share of \$1.29, up 4 percent year over year. Annual revenue was \$394.3 billion, up 8 percent year over year, and annual earnings per diluted share were \$6.11, up 9 percent year over year.

“This quarter’s results reflect Apple’s commitment to our customers, to the pursuit of innovation, and to leaving the world better than we found it,” said Tim Cook, Apple’s CEO. “As we head into the holiday season with our most powerful lineup ever, we are leading with our values in every action we take and every decision we make. We are deeply committed to protecting the environment, to securing user privacy, to strengthening accessibility, and to creating products and services that can unlock humanity’s full creative potential.”

“Our record September quarter results continue to demonstrate our ability to execute effectively in spite of a challenging and volatile macroeconomic backdrop,” said Luca Maestri, Apple’s CFO. “We continued to invest in our long-term growth plans, generated over \$24 billion in operating cash flow, and returned over \$29 billion to our shareholders during the quarter. The strength of our ecosystem, unmatched customer loyalty, and record sales spurred our active installed base of devices to a new all-time high. This quarter capped another record-breaking year for Apple, with revenue growing over \$28 billion and operating cash flow up \$18 billion versus last year.”

Apple’s board of directors has declared a cash dividend of \$0.23 per share of the Company’s common stock. The dividend is payable on November 10, 2022 to shareholders of record as of the close of business on November 7, 2022.

Apple will provide live streaming of its Q4 2022 financial results conference call beginning at 2:00 p.m. PT on October 27, 2022 at [apple.com/investor/earnings-call](#). This webcast will be available for replay for approximately two weeks thereafter.

Apple periodically provides information for investors on its corporate website, [apple.com](#), and its investor relations website, [investor.apple.com](#). This includes press releases and other information about financial performance, reports filed or furnished with the SEC, information on corporate governance, and details related to its annual meeting of shareholders.

This press release contains forward-looking statements, within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include without limitation those about the payment of the Company’s quarterly dividend, its environmental initiatives, and its plans for new features, products, and long-term growth. These statements involve risks and uncertainties, and actual results may differ materially from any future results expressed or implied by the forward-looking statements. Risks and uncertainties include without limitation: effects of global and regional economic conditions, including as a result of government policies, war, terrorism, natural disasters, and public health issues; risks relating to the design, manufacture, introduction, and transition of products and services in highly competitive and rapidly changing markets, including from reliance on third parties for components, technology, manufacturing, applications, and content; risks relating to information technology system failures, network disruptions, and failure to protect, loss of, or unauthorized access to, or release of, data; and effects of unfavorable legal proceedings, government investigations, and complex and changing laws and regulations. More information on these risks and other potential factors that could affect the Company’s business, reputation, results of operations, financial condition, and stock price is included in the Company’s filings with the SEC, including in the “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” sections of the Company’s most recently filed periodic reports on Form 10-K and Form 10-Q and subsequent filings. The Company assumes no obligation to update any forward-looking statements or information, which speak as of their respective dates.

About Apple
Apple revolutionized personal technology with the introduction of the Macintosh in 1984. Today, Apple leads the world in innovation with iPhone, iPad, Mac, Apple Watch, and Apple TV. Apple’s five software platforms — iOS, iPadOS, macOS, watchOS, and tvOS — provide seamless experiences across all Apple devices and empower people with breakthrough services including the App Store, Apple Music, Apple Pay, and iCloud. Apple’s more than 100,000 employees are dedicated to making the best products on earth, and to leaving the world better than we found it.
